Registration and Submission of Extended Abstract

on or before February 15, 2021

Organised by

NATIONAL INSTITUTE OF RURAL DEVELOPMENT & PANCHAYATI RAJ

(Ministry of Rural Development, Govt. of India)

North Eastern Regional Centre, Khanapara, Guwahati-781022, Assam

CONCEPT NOTE

North East Region of the Country (India) is considered to be a development deprived region despite having advantage in natural resources and social capital. To set up the developmental goals, identify the challenges and to suggest implementation strategies of various sectors of development in this Region, a vision document 'Vision 2020' was prepared in 2008 for a time period up to 2020. The sectors included in the 'Vision 2020' were connectivity, power, poverty eradication, human resource development, industry, tourism, ICT, health, rural development, financial services, look east policy, sports-art & culture etc. By including different sectors the Vision 2020 presented a framework to bring concerned sectoral departments at one platform for the development of the North Eastern Region.

To realize the major thrust area identified in the Vision document, several statutory and sectoral initiatives such as mandatory earmarking of at least 10% of GBS of Central Ministries/Departments for North Eastern Region (NER), creation of Non-Lapsable Central Pool of Resources (NLCPR), have been undertaken in the past years. According to the Ministry of DoNER Rs.1573.56 crore was released for development of infrastructure like roads and bridges, ISBT, airports, railway in North Eastern Region in the last five years (2014-19). Similarly, several other sectoral initiatives have been undertaken to promote tourism, air connectivity, telecommunication, value chain development, and textile promotion comlivelihoods keeping in view the areas in which the region has a comparative advantage. Several special projects for development of textile, roads, rails, and livelihood were undertaken such as NERTPS, SAMPADA, Mission Organic Value Chain Development, SARDP-NE, Bharatmala Pariyojana, RCS-UDAN, Swadesh Darshan etc.

Now, more than 11 years have been passed and some progress have also been made especially in road, rail air and telecommunication connectivity , however, the majority of the major thrust areas are yet to get sufficient attention and investment. Incidence of poverty is still high, youths are migrating to the other part of the country on higher scale, harnessing of industrial potential is yet to start, the health care system is very poor and now it require special attention considering the COVID 19 pandemic, skilling human resources, water management, value chain promotion, MSME promotion,

scaling up of financial services, especially for poor. The full potential of tourism is yet to be explored, capacity building etc. are need to be relooked once again in the changing environment. The Act East Policy potentials are waiting for mutually gainful engagement with neighbouring countries. In this background, NIRDPR-NERC propose to organize a national conference to bring experts, academia, policymaker, planners, people's organization other Stakeholders on a platform to revisit the NER Vision 2020, identify the gap and to reorientation the development strategy of States for future.

OBJECTIVES:

- To provide a platform for sharing the learnings with special reference to NER Vision 2020.
