

BACKGROUND

e-Panchayat Mission Mode Project (MMP) is an initiative of the Ministry of Panchayati Raj which aims to strengthen e-Governance in Panchayat Raj Institutions across India. PES is a comprehensive online software solution which attempts for automation of Gram Panchayat functions. It is a digital platform specifically designed for the Gram Panchayat to address various activities. It also showcases the local resources, cultural and socio-economic conditions of Gram Panchayat to the rest of the world. Further, in order to strengthen and promote e-Governance in PRIs, eGramSwaraj application has been launched which provides panchayats a single interface to complete development projects. eGramSwaraj application has been developed as part of PES which aims to bring efficiency and increased transparency and to enhance the credibility of Panchayats. eGramSwaraj will facilitate decentralized planning, progress reporting and work based accounting.

There are several issues that are to be addressed adequately to make PES and eGramSwaraj fully functional. It is the need of the hour is to equip PRI functionaries with adequate knowledge and skills in various features, work flow and technical issues of PES and eGramSwaraj.
